Examples of circumstances that would not qualify as significant financial needs for this scholarship (though laudable as they may be) include: wanting to take additional courses/spend more time on schoolwork, wanting to avoid incurring any student debt/saving money for future graduate programs, or seeking financial support to pursue an unpaid internship.

We encourage students with unusual or severe financial need to fully explain their needs. Fill in below or attach another sheet.

I affirm that I have completed this application truthfully and to the best of my knowledge. Scholarship awards are awarded solely at the discretion of the Economics Department and cannot be appealed. If awarded a scholarship, I understand that it will be only for the period indicated in the award letter. I also understand that a scholarship is not payment for services and that no teaching, research, or work of any other kind, past, present, or future, is or will be a condition for the receipt of such an award.
